

DuPage County Stormwater Management and  
The Conservation Foundation  
invite you to a *FREE* Technical Workshop:  
**BMP Effectiveness, Maintenance and  
Monitoring**

Thursday, November 18th, 8:00 a.m. to 12:00 p.m.  
Hawthorn/Chestnut Rooms, Visitor Center, The Morton Arboretum  
4100 Illinois Route 53, Lisle

The National Pollutant Discharge Elimination System program has brought many changes in stormwater management. On November 18th, we'll take a closer look at how stormwater BMPs are implemented and how effective they are at reducing runoff volume, pollutant loads, and velocity as well as improving water quality. Then DuPage County Permitting Staff will join the speakers for an open forum where participants can discuss problems and successes they have had in implementing BMPs.

Join us as we further discuss NPDES compliance.

**Three PDHs offered!**

Schedule:

- ⊗ 8:10 Introductions
- ⊗ 8:15-9:00 Monitoring Stormwater at a Permeable-Paver Parking Lot: A Student Laboratory — Dr. Eugene Losey, Professor and Chair of Chemistry, Elmhurst College
- ⊗ 9:00-10:00 What We Are Learning About the Performance of Commonly Used Stormwater Control Practices — Roger Bannerman, Environmental Specialist, Wisconsin Department of Natural Resources
- ⊗ 10:00-10:15 Break
- ⊗ 10:15-11:15 Going Green by Thinking Blue: Understand, Using and Trusting BMPs — Jay Womack, Director, Landscape and Ecological Design, WRD Environmental, Inc.
- ⊗ 11:15-12:00 Open Forum — bring your experiences with BMPs to discuss with the group, speakers, and DuPage County Permitting Staff

**Call Erin Tuttle at (630) 428-4500 x 41 or email [etuttle@theconservationfoundation.org](mailto:etuttle@theconservationfoundation.org) to register**  
**Complimentary refreshments and a continental breakfast will be served.**
