

DuPage County Stormwater Management and
The Conservation Foundation
invite you to a *FREE* Technical Workshop:

NPDES Inspections ...from the Inspector's Perspective

Thursday, April 21st, 8:00 a.m. to 12:00 p.m.
Jack T. Knuepfer Administration Building Auditorium,
421 N. County Farm Road, Wheaton

The National Pollution Discharge Elimination System permit program has many requirements to maintain compliance. Permit holders must undertake many activities including inspection of sites under construction, review of supporting documentation, and the development of a post construction program, in addition to other measures. What should an inspector be looking for and documenting? We'll give you an overview of permit requirements and some tools to make the job easier, including an NPDES tracking software and a preview of the updated Illinois Urban Manual.

Three PDHs offered!

Schedule:

- ⊗ 8:00 Breakfast
- ⊗ 8:10 Introductions
- ⊗ 8:15-9:15 *A Regulatory Update of Stormwater Requirements* — Kelsey Musich, CPESC, Resource Conservationist, Kane-DuPage Soil and Water Conservation District
- ⊗ 9:15-10:00 *NPDES Site Inspections and Implementation* — Candice Jacobs, CPESC-IT, Resource Analyst, Kane-DuPage Soil and Water Conservation District
- ⊗ 10:00-10:15 Break
- ⊗ 10:15-11:15 *Making the Most of the Illinois Urban Manual* — Jim Nelson, CPESC, Urban Stormwater Specialist, Association of Illinois Soil and Water Conservation Districts
- ⊗ 11:15-12:00 *Using Technology to Manage the MS4 Permit* — Alisa Peterson, CBI Systems Technical Trainer, CBI Systems

Call Tara Neff at (630) 428-4500 x 23 or email tneff@theconservationfoundation.org to register.
Complimentary refreshments and a continental breakfast will be served.
